

## Two Hat Design Build.

Your source for exceptional design and construction services.

Located in Charlestown, Massachusetts we serve the Boston area, as well as, the rest of New England.

Our team of architects, designers and craftsmen will work with you to create the design of your dreams, while working within your budget.

We provide a unique merging of the fields of architecture and construction. We encourage all of our team members to explore design and construction simultaneously in order to better integrate materials, methods and technologies.

It is our goal to create spaces that are both functional and expressive of the needs and desires of our clients. We do not promote any one design style, but rather allow the design to develop based on the context, site, existing conditions and aesthetics.
